We are a creative company based in central London who recently had GSD redecorate our head office. Mat our project manager over saw all details from start to finish. Our office was decorated to a great standard and the GSD team were extremely polite and clean throughout. Would be happy to recommend.

I've contacted GSD Painting & Decorating as I needed my offices floor painted. They did an amazing job, the team was hard working. Everything has been finished on time as well.

Good job

We recently had GSD decorate our law firms office in Holborn. Mat, one of the directors dealt with us from start to finish, answered our questions pertaining to decorating, was extremely patient and helpful and we are really pleased with the results. Mat's attentiveness is why the end results are so positive. Happy to recommend GSD Painting & Decorating.

GSD/Prime took on a large decorating contract for me and were diligent and professional every step of the way up until handover to the client where they continued to carry out extra works post completion for the client at their request. I am tendering for other projects now using GSD as my 'go-to' decorating contractors...

I recently bought a restaurant in East London, and it was in need of a full-out remodeling. I've heard about the work of GSD, so I decided to give them a try... Couldn't have been better. From the concept, painting, interior decoration, furniture and the space optimization, GSD use their professional painters and decorators to make your business look perfect for your line of work.
